

HEADQUARTERS 306TH BOMBARDMENT GROUP (H)
Office of the Intelligence Officer
United States Forces

3 November, 1943
APO 634

SUBJECT: Intelligence Report.

TO : Commanding Officer, 306th Bombardment Group (H).

1. Hot News

2 A/C of this Group collided on way out at 54°00'N - 05°10'E at 1218 hours. Only two parachutes seen by this Group, one of which appeared not to open.

2. Narrative

25 A/C of 306th took off at 0947 hours, joined by two PFF. Splasher #4 at 1115 hours. North of course on first leg to 54°00'N - 04°50'E, thence on briefed course to target and back out to 54°20'N - 05°00'E, thence south of course to 53°40'N - 03°55'E to Cramer.

3. Bombing Results

PFF ship performed exactly as briefed. Opened doors at I.P. Released parachute flares, then bombs. If location was exact bombing should be good, as all but one or two ships of 306th got bombs away on PFF. Unfortunately one Group behind, possibly 305th, dropped on these early bombs. Only real flak observed just as bombs were away, tending to show location near target area.

4. Abortions

None.

5. Encounters

After fighter escort left and apparently over the Islands on the way in, from 20 to 25 S/E and 3 T/E fighters broke through the overcast and started climbing toward the formation. Just as they were well formed the returning P-47s discovered and dove through them. They reformed and were climbing again when the P-38s arrived. The P-38s attacked at once and the E/A dispersed and were not seen again.

6. A.A. Gun Fire

Flak was meager and inaccurate. A few bursts over Islands on way in; 25 to 30 bursts in one compact cluster right after bombs away, very low and to right. Three or four bursts over Islands on way out, better for altitude but wide to right. German fire at unseen target through cloud cover a very poor effort.

7. Fighter Escort

Fighter escort was superb. P-47s arrived on time and swept ahead making tremendous con trails high and to right of formation. Crews enthusiastic about P-38s as escort. They stayed with formation close in and were not afraid to come right up to bombers, being positive crews could recognize them. E/A at hopeless disadvantage coming up through overcast with support having advantage of height. There were no attacks on this Group and we make no claims.

JOHN A. BAIRNSPATHER,
Major, AC,
Group 8-2.
