Sept 16 1944

I just heard the following report
(medical) over German short wave in
regard to Lt. Richard Daniels, now
a German prisoner. "Upper right
arm broken (compound fracture)"
According to the announcer who
read the report it is healing very well.

Sept 16.

Ever since I read a medical report
on a German that was about 10%
E. R. Daniels. Born approx. 1910. which
said he suffered a broken arm,
which was healing well. and need
no any future reports.

Sincerely,

Samuel Peterson
